

# June Lake Advocates

June 1, 2005. Volume 1, No. 1

## **Fishermen and Campers: Preserve the Loop! We Need Your Help!**

The natural beauty and relaxed atmosphere of the June Lake Loop is in danger! You can help preserve and protect the area from over-development. *Join Us!*

Would you like to help the June Lake Advocates (JLA) preserve the June Lake Loop?

We are a growing advocacy group comprised of over 460 people who volunteer time and energy to help protect the Loop from over-development. We believe that current plans for development of the Loop threaten the unique mountain character of our community. We are working to save our streams, our lakes, our environment, our animal habitat, and our scenic vistas from commercialization.

Current commercial projects threaten to abandon an established general plan for development, a plan that was crafted to balance reasonable growth with environmental respect. The June Lake Advocates represents the voice of both local residents, second home-owners, and seasonal visitors in advocating adherence to the area general plan.

The June Lake Advocates has three major legal firms assisting us in our efforts to balance healthy community growth with respect and preservation of the beauty of the June Lake Loop.

You can help! By joining the June Lake Advocates, you can add your voice to the protection of the Loop for today, tomorrow, and all future visitors to the Eastern Sierra.

Join the June Lake Advocates today!

## **June Lake Advocates: Contact**

Summer is here and the number of visitors to the June Lake Loop will increase greatly. We hope that many of the visitors to the Loop will become aware of the issues that threaten

our community and environment.

You can find more information on joining the June Lake Advocates on our Web site:
